SEED DELEGATION NOT GOING EAST

Will Ask Government to Give Banks Power to Take Seed Grain Liens.

At a meeting held on Monday by the Winnipeg members of the Ottawa delegation appointed by the Seed and Feed Grain committee to interview the government it was decided that nothing could be accomplished at this date by the proposed visit to Ottawa. The conclusions reached are reflected in the following telegrams sent to the minister of the interior, Ottawa, and the provincial governments of Saskatchewan and Alberta.

The message to the minister of the interior was as follows: "Referring to your letter of 25th February, the delegation considered it of the utmost importance that every farmer should be provided with seed for all the land he has properly prepared. With this object in view the committee urge that the banks be empowered as an emergency measure to take seed grain liens, chattel and land mortgage security for any advances to farmers for this season's farming operations. This would probably improve conditions over a considerable portion of the drought area. In view of your letter of 25th we consider it unnecessary for the committee to go to Ottawa."

Provincial Governments
The text of the message sent to the government of Saskatchewan was:

"The Winnipeg member of the Ottawa delegation appointed by the Seed and Feed Grain committee, after a conference with the commissioner of immigration and after fully considering the practical difficulties in the way of an increase in the measure of assistance being extended by the Dominion government to Saskatchewan and Alberta farmers who suffered from drought in 1914, have unanimously reached the conclusion that if these farmers who lack means or credit to buy seed or feed, and who have not been found eligible for assistance from the Dominion government sufficient to put in a crop on all land they have properly prepared, are to be adequately provided for, it now rests with the provincial governments to take prompt and energetic action to supplement what has been done by the Dominion authorities."

"The committee remain of the opinion expressed in an earlier telegram that in the province of Saskatchewan the matter is one that should properly be taken in hand by the rural municipalities, and that in the case of municipalities whose financial position is not such as to enable them to borrow money for this purpose, the provincial government should offer its guarantee."

"The committee are now distributing posters at all railway points recommending farmers who have failed to obtain seed and feed from other sources, to make application to the secretary of their rural municipality, but it is urged that no effort be spared by the government to stir the officials of every rural municipality to act with the utmost promptitude."

The first portion of the above message was also sent to the government of Alberta.

Much misapprehension has existed, and still exists, throughout the west with regard to the scope of the assistance being afforded farmers by the Dominion government. The intention of the government in the first place was to limit assistance to owners of unpatented lands in certain well defined areas afflicted by drought. Subsequently the government agreed to extend assistance also to the owners of patented lands in the drought areas, the maximum amount of seed to be furnished any one individual being fixed at 400 bushels. Still later the government's assistance was extended to small farmers in any part of the three provinces who suffered from crop failure last year.

Big Farmers

It is to be particularly noted that the governments measure was not designed to assist the owners of patented lands who are conducting farming operations on a large scale, and that these farmers who have 400 acres and upwards prepared for crop, cannot look to the Dominion government for any assistance beyond the maximum of 400 bushels.

But the point on which the most serious misunderstanding has arisen is with respect to the maximum allowance of seed to the small farmer. The impression has prevailed that up to a limit of 400 bushels all farmers owing a quarter or half section of land only, would have their requirements provided for. The rule of the department—which it is said has been followed in connection with all previous distributions of seed by the Dominion government—is that seed will be supplied only for the amount of acreage which the applicant had in crop the previous year. This, of course, means that when a small farmer had 50 acres in crop last year and 50 acres in summer-fallow, and now has 100 acres prepared for crop, he only receives from the Dominion government seed for half his need.

Rural Municipalities

Any further aid required by deserving men of the last men-

tioned class can now only be obtained through the instrumental of the provincial government and rural municipalities, and the responsibility appears to devolve on the provincial departments of agriculture to see that there is no failure to act on the part of the rural municipalities merely through inertia of Reeves and councilors.

MIRROR SCHOOL BOARD SESSION

The regular monthly meeting of the Mirror School Board was held on Thursday, March 4th.

The following school trustees were present:—J. W. Pringle, chairman; Ed. Coleman, Jas. Setter.

The following bill were allowed:

| | |
|---------------------|---------|
| Imperial Lumber Co. | \$85.45 |
| Mirror Journal | 2.50 |
| A. R. Hopkins | 4.50 |
| Chas. Suggett | 6.15 |
| Panrucker & Holland | 2.20 |
| Mrs. Hutchinson | 1.00 |
| Duitman & Johnson | 11.35 |
| S. Phelps | 76.00 |
| W. C. McCormack | 5.00 |
| P. M. Carmichael | 8.00 |

A bond for \$500 from L. O. Phelps was accepted. This is for the proper performance of duty in conveying the children from the northern part of the School district.

Debentures amounting to \$575 were ordered to be paid as soon as money was available.

Sec'y was instructed to cancel the penalty on the G. T. P. taxes.

Rev. R. Clegg, of Bashaw, and Rev. Gee were in Mirror last Saturday visiting with Rev. Duggan.

Keep the date open for the Eckhards Music Co., on March 16th.

ADDRESSING OF MAIL

In order to facilitate the handling of mail at the front and to insure prompt delivery it is requested that all mail be addressed as follows:—

- (a) Rank
 - (b) Name
 - (c) Regimental Number
 - (d) Company, Squadron, Battery or other unit
 - (e) Battalion
 - (f) Brigade
 - (g) First (or second) Canadian Contingent
 - (h) British Expeditionary Force
- Army Post Office,
LONDON, ENGLAND.

AN URGENT REQUEST

As the former dinners in these columns to delinquent subscribers had not quite the effect desired, we again invite those who are in arrears to visit our office some day soon and pay themselves from a dollar or two. True, a dollar is not very much, but if those who are indebted to us for that amount, would imagine for a moment or two they are the editors with a book in hand showing about four hundred of these one and two dollar accounts, they perhaps will understand why we are continually dunning those in arrears. Or, if you are a farmer, imagine the quandary you would be in if you sold your wheat in one bushel lots to customers here, there and everywhere and then had to wait the pleasure of each customer for the returns. That is our predicament exactly.

In another column in this issue will be found Bill Johnson's ad.

SEED GRAIN APPLICATIONS

48,630 Applications for Seed Grain in Manitoba Saskatchewan and Alberta.

There have been 48,630 applications for seed grain from the provinces of Manitoba, Saskatchewan and Alberta. The following quantities are required, according to a return laid on the table of the commons Tuesday: 3,209,580 bushels of oats; 3,305,840 bushels of wheat and 46,000 bushels of barley. The land for which seed is asked is 3,473,456 acres.

The government has on hand to meet the applications the following: 2,812,000 bushels of wheat; 2,766,000 bushels of oats and 38,000 bushels of barley.

The provincial governments are passing legislation to ratify the agreement to protect the security which the federal government is taking.

LOCAL NEWS FOR THE WEEK

Watch for the date of Mrs. Chas. L. Suggett's spring millinery opening.

Who said that spring is not here. Several gophers have been seen already, which is a sure sign of spring.

The annual parish meeting of St. Monica's Church will be held in the rectory on Monday, March 15th, at 7.30. It is hoped that all church members will try to be present.

Eckhards Music Company are billed to appear in Mirror on Tuesday, March 16th. This is the second appearance of this fine company to our town, and they are known to carry a first-class reputation. We hope that the people of Mirror will show their appreciation by turning out in full force. Reserve your seat at the drug store.

F. B. Barber, of Coleridge, Neb., inserted a classified ad. in THE JOURNAL for "Land Broken." We received word from him that he obtained good results from the ad. He also renewed his paper for another year. THE JOURNAL Classified ads seldom fail. Try one.

J. C. McDougall, of Edmonton, and government scale inspector was in town for several days last week inspecting the local in town. All scales were found to be satisfactory. The inspector stated that the inspection was a credit to the parties owning the scales.

Last Tuesday evening a number of loads of young people under the auspices of the Mutual Improvement Society drove out to the home of Mr. and Mrs. Louis Olsen and spent a very enjoyable evening. The sleighing across the lake was good and the drive was thoroughly enjoyed. Some have been asking why we haven't had more of these during the winter. There is no good reason why we shouldn't have had them often. Now that the sleighing is wearing out and however, the outings of the society will have to take a different form.

Archdeacon Downey, of Red Deer, will preach in St. Monica's church on March 14th.

Mr. and Mrs. Jas. Steers, of Bashaw, was in Mirror on Wednesday doing business.

S. G. Grahm left for Dayland on Saturday where he has taken a position on the Dayland Press.

John Stevenson and family have moved into the La Pointe residence.

POSTERS TO COMPLY WITH BREEDERS' ACT

Stallion owners desiring to have posters or route bills printed should see that the posters comply with the requirements of the Horse Breeders' Act.

The essential points to bear in mind is fulfilling the requirements of the Horse Breeders' Act in respect to stallion posters are appended below:

1. The true description of the stallion as a pure bred, grade, cross bred or scrub animal shall be printed immediately above or below the name of such stallion in letters at least one inch in height and of bold type.

2. No illustration, pedigree, description or other matter that is untruthful or misleading shall be used in any such bill, poster or advertisement.

3. Every such bill, poster or advertisement issued shall contain a true copy of the certificate or enrollment for the current year of the stallion referred to therein, and any such copy shall occupy at least one quarter of such bill, poster or advertisement.

4. Two copies of each such bill, poster or advertisement shall be mailed to the Department of Agriculture, by the person or firm employed to print or publish same.

Printers must not accept any order for printing stallion posters or route cards unless the certificate of enrollment has been renewed for the breeding season of 1915.

Quality Goods

That is our motto. QUALITY First.

Remember we stand back of everything we sell and if an article is not right, we are here to make it so.

New goods are arriving daily, we have some of our new goods in and more are on the road; our new Spring Hats have also arrived; and your inspection is invited.

Lighting of Mirror ELECTRIC Vs. OIL

In view of the alarming interest taken in the electric light, gentlemen of great experience is engaged in making the fullest investigations into the relative merits of electricity and oil as illuminants. The installation of electricity as a light, is very imperfectly understood, but should a trial in Mirror be successful, then the question of electric lighting of the whole town will immediately arise, to make property owners, Tradesmen and General Public to have a fair opinion. The gentleman will be in a position, from observation and enquiries at the principal electric works in Canada and the cities and towns where the electric light is used, to produce in the completed manner possible, all the information regarding the use and cost of electricity and oil that can be obtained; thus the powers and people will have an opportunity of forming a correct judgment of electricity vs. oil. Realizing the importance of "throwing light" on any subject, the gentleman advises all people to use that penetrating searchlight, clear foresight and they will discover that **Flaming, Illuminating, Blackening and general engineering** is done in Mirror by **Bill Johnson** at Carroll Avenue, W. G. Mackenzie's old stand. You cannot lose by the light. Every chance of repairs done. Estimates given.

THE SEED LAW

With the opening of the 1915 seed trade, seedmen, farmers and gardeners may wish to review the conditions under which sales may be made. The Seed Control Act provides that timothy, alfalfa, red clover and alfalfa must not be put on sale for the purpose of seedling without being plainly marked with the grade, namely: No. 1, No. 2, No. 3, in quality only to dealers to be cleaned and brought up to grade. All other grass, clover and forage plant seeds and those of cereals and flax must be marked in a plain and indelible manner with the common names of any noxious weed seeds present.

Seeds of cereals flax, grasses, clover forage plants, field roots and garden vegetables must have a germination of two-thirds of the percentage standard of vitality for good seed of the kind or be marked with the percentage that are of germinating. "Papered seed" must be marked with the year in which the packet was filled.

Representative samples of seed for purity and germination tests may be sent to the Seed Branch, Calgary, Alta. Two ounces of grass seed, white or alsike clover, four ounces of red clover, alfalfa or seed of like size and one pound of cereals are desired. Samples require postage but are tested free of charge up to 25 in number for each person or firm.

SLEEPING IN CHURCH.

It Used to Be Rudely Interrupted in Olden Times in England.

One John Hodge is on record as being benighted in the parish of Tyne, in Shropshire, England, 20 shillings a year to be paid to his poor man employed to go about church in summer to keep people awake.

At another English church, that of Acton, in Cheshire, it was the practice during the middle of the last century for one of the churchwardens to proceed through the church during service with a huge wand in his hand wherewith if any of the congregation were observed to be asleep he was instantly awakened by a tap on the head. In Warwickshire a similar custom prevailed. A warden bearing a stout wand staved like a hay fork at the end stepped stealthily up and down the nave and the aisles, and wherever he saw an individual asleep he touched him so effectively that the nap was broken, this being sometimes accomplished by the application of the fork to the nape of the neck.

A more playful method obtained in another church. The warden went about during service carrying a long staff to one end of which was attached a fork and to the other a knob. With the former he gently tickled the faces of the sleeping, while with the knob he bestowed a sharp rap on the heads of male offenders.—Exchange.

ORIENTALS APT PUPILS.

It Doesn't Take Them Long To Get the About of Our Ways.

About the time the Japanese or Siam student at Harvard has come to know his way about the campus he has forgotten to prefix "honorable" to the names of professors, he remembers only dimly that he used to salute his elders, and he wears a cap with as much grace and comfort as any other freshman.

If six weeks will make such transformations in the oriental apt pupil, it will not be strange that even his father would have difficulty in recognizing him at first glance. And he can say, "You get me, Harold, don't you? You get me?" and "Let's look it up as readily as though he were Boston born." A tutor over in California rates oriental students in charge as soon as they arrive at the university and instructs them in the ways of acquiring a working knowledge of English. It makes no difference whether the professors have an education in the English language or not before they left home.

The Chinese or the Japanese student, the tutor says, is invariably quick, determined and eager to learn. Also, according to this tutor, he observes a lot of oriental things.—Boston Herald.

Mirror Stock Market

MAIL 5th, 1915
We will pay the following prices, weighed at railway stock yards, Mirror, by Beamish & Co. Subject to change without notice.
Classification on Hogs.

HELP BY A COBRA.

Agency of a Prisoner in a Military Jail in India.

If the military entanglements of India the punishment cells, which are about fourteen feet high by twelve feet square, stand separately. There are no windows, but one side is a grille, the iron bars being about five inches apart.

On one occasion when a private was confined in one of them a large cobra, one of the most deadly reptiles in India, crawled between the bars and writhed on the bed to get warmth. It carried upon the prisoner's chest, and he was just about to turn over when, feeling the unusual weight, he saw the snake's glittering eye staring into his face. He dared not move, as he had to lie in that position for four hours.

At 5 o'clock, when the sergeant went his rounds, he saw the position the prisoner was in and went for a long stick. With another soldier he entered the cell, and they drove the snake into a corner, where they killed it. The cobra released the prisoner, as he thought he had suffered enough punishment in the terrible experience he had gone through. The man's hair had turned white with the shock and strain which he had endured.—London Standard.

A Murder in 1870 Averaged in 1914

An exceedingly bad story added to the

from the front.

Dr. J. M. Gorman, a Franco-German war of

1870 the Germans, by their invasion

among the French, spread out, miseries

they claimed. A certain well-to-do

man, who had been a soldier, was much

enraged by the plunder of his well-

known home, and he decided to

German soldiers. He was immediately

arrested and taken to the prison, where

he was held for several days. His

little boy, who was then about

four years old, was left with his

father.

"The child said, 'when I

grow up I shall avenger father and

shoot Germans. I shall be a soldier

and I shall be a hero. I shall be a

valiant, fighting further abroad in

Alas! under German rule unbearable,

ending to Belgium and to

nearby, where she took no

other form.

Her boy became a man, the father

of a family, including two boys, and

for forty-two years his mother shared

with him and her grandchildren

happy family life at Vaux. Then came

the present war, and the German troops

arrived in Vaux.

The Helian inhabitants had just

before destroyed a bridge over the

Meuse. For they were severely

by the destruction of the

house. Farmer Hauf witnessed

the destruction of his home with

distress, and remembering his

father's tale of the German invader

dead, he decided to take revenge.

At once a number of soldiers seized him

and took him to the prison, where

he was held for several days. His

little boy, who was then about

four years old, was left with his

father.

"The child said, 'when I

grow up I shall avenger father and

shoot Germans. I shall be a soldier

and I shall be a hero. I shall be a

valiant, fighting further abroad in

Alas! under German rule unbearable,

ending to Belgium and to

nearby, where she took no

other form.

Wireless Station in New Brunswick

This station is the first of its kind in

the value of the wireless system of

telegraphy. Wire and ocean

calls can be cut, but the air is

able, at least to telegraphers, who

are now to build receivers capable of

carrying messages across the Atlantic

ocean. The station is situated on a

250 horsepower force to make sound

the station of the Universal Radio

Company is making Newcastle, N.B.,

Canada, the largest wireless station

in full view from the railway station. In fact they are an

sixty sea feet in land adjoining the

coast. The station is surrounded by

500 feet, is in the centre, built of

stone. The power house is of concrete blocks

and has two electric generators

driven by oil engines of 250 horse

power each, built in Italy. The oil

will be received through pipes from a

tank car leading to a tank in the

engine room. The operating building is

also of concrete, and is for the use of

four operators.

The whole plant is complete and

the finishing touches are being

run at night and day on a similar

in Ireland. Another is built in San

Francisco, and a third in New York

city. The station in New York is

sent by wireless between the

station in New York and San Fran-

cisco, 2,500 miles.

The station in New York is

WAR TAXES

LYONS, LTD.

BEHIND THIS NAME IS
:: "QUALITY" ::

LYONS have the reputation as well as the name.
Their Qualities are not equaled and prices cannot be
duplicated.

We are selling much cheaper than what you can buy through your Mailing Houses from the catalogue. In the first place, you see with your own eyes what you are buying, and the next is that we guarantee to give you satisfaction, and we are here from day to day and will be pleased to meet you face to face. Our aim is to please you all and assure you the best service.

With big saving on your purchases there is no equal to Lyons, Ltd. for good service and providing the best merchandise at very low prices. We invite you to come and see our new goods that are arriving daily, such as Shoes, Dry Goods, Clothing, Groceries, &c. Our buying facility gives us the opportunity to sell cheaper than others. We have a chain of stores throughout Alberta, Saskatchewan and Manitoba, and that is why we know the markets. This alone you can benefit by. Here we are to show you that we have placed our system in selling goods where you can see the difference. You needed a store like ours long before, and now it is up to you to patronize the place which has brought down the prices of high cost of living. You will notice a few of our prices—below what we can do for you.

POOR BUSINESS

There is something wrong with our credit system in this country.

A man with a quarter section desires to put it into crop. It will cost him to prepare for seeding and to seed it somewhat more than \$6.00 an acre, or about \$1000 in all.

The prospects are that the quarter will yield about 8,000 bushels of oats, which at the market price should give a clear profit of about \$4,000. It would pay for the seeding and everything and yield the farmer at least \$2,000 or \$2,500.

It should be easy for him, particularly in a year when the demand for grain is as great as this year, to borrow the original thousand dollars to put his land into crop.

But it is impossible. He cannot get money from the banks. The bankers will tell us that it is not the duty of the banks to meet any such investments.

But if that quarter section is not put into crop it will be very bad business. Hundreds of quarter sections in this province will not be put into crop for that very reason. It is a reflection upon our system. There is something radically wrong in it.—Ex.
